

Sacred Sex

THE DIVINE PATH INTO THE HEART OF LOVE

Namonyah Soipan

For thousands of years sexual union was practiced as a sacred act by ancient cultures. It was known as a divine tool for achieving transcendence and as a route to God/Goddess. An Integration of these eclectic teachings and the spiritual principles, will enhance your sexual experience as you learn to honor the Divine mirroring within yourself and your partner. As a result of integrating sacred sexual experiences, your vibrational energy heightens reaching towards infinity, dipping into a deep communion with existence itself.

Namonyah Soipan is a shamanistic psychologist and an international workshop facilitator /consultant. For the past twenty-five years she has practiced Afrikan and Native American wisdom medicine and has used her vast experience to hold sacred space for people on their spiritual path. This workshop offers a unique shamanic experience of sacred ceremonies and rituals.

“Love; But do it very carefully, you are stepping on sacred ground. You are moving into the Highest Temple, the most beautiful of all beauty. Leave all your impurities outside the Temple’s door. Embrace your lover as God/Goddess only then does love unfold as prayer; become Holy.” Osho
